PROPOSED

TYPE NAME
WEST MARIN SANITARY LANDFILL

CSWMB APPROVAL

11-11-77

OPERATION

ELMER LEROY MARTINELLI, POINT REYES STATION, CA

DATE

FACILITY LOCATION

HIGHWAY ONE (one and 1/2 mile north of Point Reyes Station)

ENFORCEMENT AGENCY

APPROVAL

5-25-78

FINDINGS

I. This facility is a 536.9 acre Class II-2 sanitary landfill of which approximately 25 acres are actively being used for disposal purposes. The site utilizes the area method of disposal operation. Approximately 375 tons of compacted wastes are received each week. Types of wastes received at the site include:

- . Residential and commercial wastes
- . Tires
- . Autos
- . Wood and Tree trimmings
- . Sewage sludge

Hazardous Wastes are not accepted at the site. The site is open Wednesday through Sunday from 8:30 AM to 4:30 PM.. The design and operation of this facility as they existed prior to August 15, 1977 are as described in the following documents:

- a. Report of Disposal Site Information, Murray-McCormick, dated August 12, 1977
- b. Engineering Report on West Marin Sanitary Landfill, dated May 20, 1972;
Michael F. King, Consultant
- c. Engineering Report, West Marin Sanitary Landfill, Stanley J. Rupiper, Michael F. King, Consulting Engineers, dated July 1975.

2. No changes in design or operation are anticipated in the next five years.

3. The following documents condition the design and operation of this facility:

- a. Marin County Planning Use Permit dated November 15, 1965
- b. Waste Discharge Requirement No. 77-140 dated February 23, 1975 issued by the California Regional Water Quality Control Board, San Francisco Bay Region

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

TYPE NAME

WILLIAM L. DESMOND

Waste Discharge Requirement No. 77-150 dated November 15, 1977 issued by the California Regional Water Quality Control Board, San Francisco Bay Region.

4. A well has been drilled and a water tank (1000 gal.) is being completed for fire control and sanitary usage.
5. The nearest dwelling is located over 1000 feet from the site. General land use within 1000 feet of the site is predominately grazing.
6. Non-conformities exist with the State Minimum Standards for Solid Waste Handling and Disposal in the following listed Sections:

- 17636 - Adequate records available at site.
- 17637 - Adequate records available at site.
- 17638 - Maintain log of special occurrences.
- 17657 - Complete entry sign - specify acceptable wastes.
- 17666 - Acquire sanitary facility, lav., etc.
- 17668 - Acquire phone, pager, CB radio for emergency.
- 17676 - Specify areas of working space.

7. The West Marin Sanitary Landfill is in conformance with the latest version of the Marin County Solid Waste Management Plan.

CONDITIONS:

Requirements:

This facility must comply with all the State Minimum Standards for Solid Waste Handling and Disposal.

2. This facility must comply with all Federal, State and Local enactments and requirements.
3. Additional information concerning the design, maintenance and operation of this facility shall be furnished upon request of the enforcement agency.

Prohibitions:

The following actions are prohibited:

1. Disposal of hazardous wastes.
2. Scavenging - Salvaging by unauthorized persons.

Specifications:

1. No significant change in design, maintenance and operation from that described in items No. 1 and 2 of the FINDINGS section are allowed except for those changes required in the CONDITIONS section of this permit.

Provisions:

The operator shall fully comply with those sections of the State Minimum Standards for Solid Waste Handling and Disposal listed in #6 of the Findings section by January 1, 197

2. This permit is subject to review by the enforcement agency and may be suspended, revoked or modified at any time for sufficient cause.

Self-Monitoring Program:

The following items shall be monitored by the operator of this facility or his agent and records shall be kept and made available to the enforcement agency upon request:

1. Log of the total quantity of wastes by month and their types deposited at the site on a daily basis.
2. Site shall be monitored for and kept free of litter and vectors.
3. Quantity of wastes salvaged per month.
4. Record of vehicles using site per day/per month.
